The 2018 IEEE International Magnetics Conference (INTERMAG) and Technical Exhibition will be held in Marina Bay Sands Convention Center in Singapore on Monday April 23 through Friday April 27, 2018.

INTERMAG is the premier conference on all aspects of applied magnetism and provides a range of oral and poster presentations, invited talks and symposia, a tutorial session, and exhibits reviewing the latest developments in magnetism ranging from fundamental to applied aspects, including advances in magnetic recording, spintronics, energy and power technologies, bio-magnetism, and the emerging fields of Internet-of-Things and smart living. Selected papers from the conference will be published in the IEEE Transactions on Magnetics.

Located at the tip of the Malay Peninsula, Singapore's tropical climate welcomes both leisure and business travelers year round. The island republic's excellent infrastructure enables visitors to enjoy its many sites and attractions in a safe, clean and green environment. This tiny island-state is also remarkably culturally diverse. Where else could you marvel at the charms of yesteryear in the historic Chinatown, then tuck into a delicious curry in Little India, before ending the night atop of the iconic Marina Bay Sands sipping a cocktail?

INTERMAG 2018 will offer an exciting and substantial scientific program with participants from all over the world. It will be a broad forum of exchange for both academia and industry alike. Hope you will come to Singapore and enjoy the INTEMAG 2018 conference.
